

# GRAVIS 12+ W

- Full range system 12" / 1,4"
- Coverage angles 90° x 50°
- 133 dB max SPL
- 35° and 55° monitor angles
- Good handling by low weight and ergonomic handles

The GRAVIS 12+ W is a compact, light high performance speaker in a multifunctional enclosure for the ProRental application. The full range speaker has a biaxial structure and is equipped with a 12" low frequency chassis and a 1,4" high frequency driver on a pivoting 90° x 50° CD horn. In smaller or midsize applications it is the appropriate main system for voice and music performances. In larger and complex applications, it may be used as delay, fill or effect speaker, but also as floor wedge.

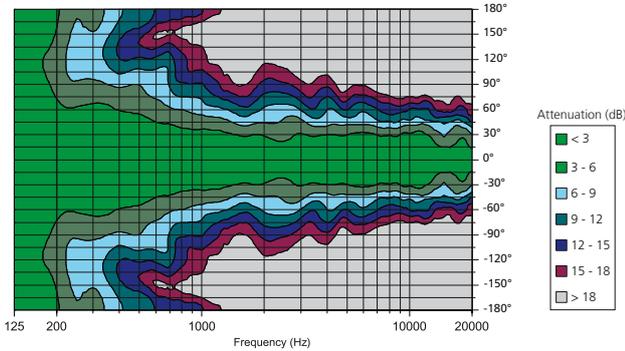

The GRAVIS 12+ W has a discreet visual aspect. The speaker front is protected by a grille, underlaid with opaque black foam. The enclosure has got two different monitor angles, permitting to adjust the sound field according to the actors. All surfaces in contact with the ground are protected by plastic sliding feet. The two Speakon bushes sunked -in the enclosure to protected them against damages. Ergonomic handles permit the comfortable transport of the box, and the easy lifting in a higher position (e.g. on a stand). Accessories are fastened quickly and safe to the VariPoint®, complying with the BGV C1.

The maximum sound pressure level of 133 dB offers high dynamic resources, especially for live applications. Also, the GRAVIS 12+ W is offering the neutral and at the same time natural sound character which is typical for K&F.
