

Creator DLX MKII Bar

Specification sheet

Creator DLX Bar MKII Ledbar from GLG. Equipped with the newest 6 in one Led's and precise lenses, colours are mixed within the luminaire itself, thereby eliminating undesirable colour shadows. Thanks to the innovative 14 bit dimming technology, the Creator DLX Bar MKII can be dimmed in much the same way as a luminaire with a halogen light source and therefore mixes easily with luminaires in existing set-ups. Double powercon sets

and XLR in out, Brackets at each side and a quicklocksystem makes the Fixture capable to be placed anywhere you want. For example as Horizon Light, Footlight etc. The 24 pieces 12 watt RGBWAuV Led's ensures a high Lightoutput.
