

## Replay MKI

### User Manual

This manual contains important information.  
Please read before operating fixture.

## INTRODUCTION

The GLG Replay MKI is a very useful and versatile DMX tool. It can work as a DMX recorder, signal booster, signal converter and merger. To optimize the performance of this product, please read the user manual carefully before use.

### What Is Included

The following items are included in the box:

- 1pc Replay MKI
- 1pc Power cable
- 1pc User Manual

Carefully unpack the carton, check the contents to ensure that all parts are present, and have been received in good condition. Contact your supplier immediately and retain packing material for inspection if any part is missing or damaged.

### Safety Instruction

**WARNING!!!** To reduce the risk of fire, electric shock, or injury to persons, follow these important safety instructions:

- This product is intended for indoor use only!
- Always turn off, unplug power and allow fixture to cool before servicing.
- Ensure that fixture is properly grounded.
- Please keep this User Guide for future consultation.
- To prevent risk of fire or shock, do not expose fixture to rain or moisture.
- The unit must be installed in a location with adequate ventilation. Be sure no ventilation slots are blocked.
- Make sure power cord is never crimped or damaged.
- Do not remove the top cover under any conditions. There are no user serviceable parts inside.
- Disconnect the unit's main power when left unused for long periods of time.
- Never connect this unit to a dimmer pack.
- Never operate this unit when its cover is removed.
- Any damage caused by manual modifications are not subject to warranty.

### Software updating

The software can be upgraded via SD card as following steps:

- 1) Copy the new software (SSCR10AM & SSCR10AS) to the root directory of SD card.
- 2) Insert SD card and press Menu button till "SYSTEM setup [new software]" shows on display.
- 3) Press Enter button.

# OPERATING INSTRUCTIONS

## BRIDGE

Under BRIDGE, the unit works as a signal converter. Press BRIDGE button and its LED is lit up. Then use MENU/ENTER/UP/DOWN to select different modes as below.

10. Click on OSC:192.168.16.254 (IP of RECORDER), and then set Port(outgoing): 6454 and Port(incoming): 8000 as figure below.

11. Click DONE and now your iPHONE/IPAD is ready for Replay and 24CH

8. Click "Sync" on TouchOSCEditor and the name of PC/laptop will be shown on your iPHONE/IPAD.

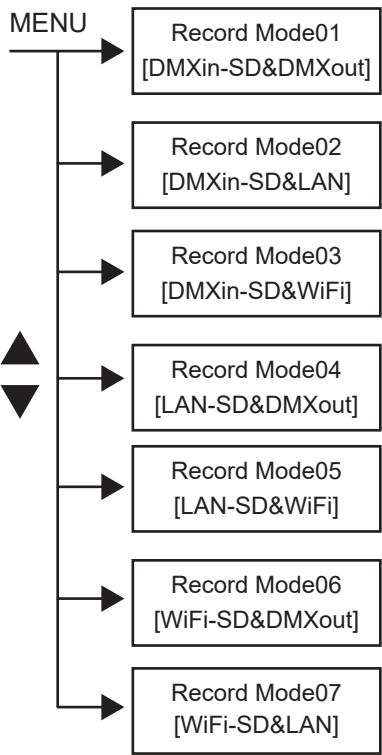

9. Click the name of PC/laptop on your iPHONE/IPAD and confirm OK, then you will see the name in layout list. Click and select it.

## RECORD

Data of lighting show can be recorded from the Ethernet network , WiFi or 2 DMX inputs. Each memory can be up to 20 hours.

1. Press RECORD button and its LED is lit up.
2. Use UP/DOWN to select record modes as below.

3. Press 1-8 button to select Memory for recording. The LED of selected Memory is blinking and corresponding number "MEMX(1-8)" will be showed on LCD.

4. Press ► button to start recording, ■■ to pause and ◀ to end recording.

## REPLAY

Replay can be in solo or loop mode. And operation of replay can be on the unit or iPhone/iPad via TouchOSC.

### Replay on unit

1. Press REPLAY button and its LED is lit up. The unit goes to last status of replay.
2. Use ◀ and ▶ button to run in loop mode, ■ ■ button to run in solo mode.
3. In loop mode, LED indicator of ◀(or ▶) is blinking. ◀ and ▶ button indicate the direction of running. The LED indicators of selected memory are lit up and the blinking one is in running.
4. When in loop mode, press ■ ■ button to pause, press ■ ■ button again to enter solo mode and its LED is blinking. In solo mode, the selected MEM (memory) are lit up. Press the selected one to run in solo mode and its LED is blinking.
5. Use SPEED slider to adjust running speed from 25% to 200%. Use DIMMER slider to adjust output from 0 to 100%.

NOTE: MEM button without recording data can't be selected in REPLAY.

### Replay or OSC 24CH DMX on a iPhone/iPad

In order to use a iPhone or iPad to control the Replay MKI , you need to install TouchOSC and upload the interface of RECORDER on your iPhone/iPad.

1. Download TouchOSC from Apple Stores and install it on your iPhone/iPad.
2. Click on OSC and run it on your iPhone/iPad.
3. Power on Replay MKI.
4. Connect your iPhone/iPad with the RECORDER. Click WLAN setup on your iPhone/iPad and select DMX RECORDER XX. Password is 12345678.
5. Download TouchOSCEditor.exe ( <https://hexler.net/software/touchosc>) and install it on your PC/laptop.
6. Run TouchOSCEditor , click "Open" and select "Replay MKI.touchosc" and "24CH DMX.touchosc"file on your PC/laptop.

7. Click on the dot in the upper right corner of your iPhone/iPad, and then click LAYOUT and Add.
